1. Executive Summary

JargonQuest represents the evolution of Web3 gaming, combining skill based competition with real BNB rewards in a sustainable, revenue driven ecosystem.

JargonQuest is a revolutionary Web3 gaming platform that connects skill based gaming with real BNB rewards. After a successful 2 year development phase with a functioning BNB Rewards Pool, Telegram Mini App, and Leaderboard Gaming Platform, we are now launching Fair Launch V3 with a structured private sale.

17K+

GAMING USERS

7K+

TELEGRAM PLAYERS

0/0%

TAX AT LAUNCH

100%

TGE FOR PRIVATE SALE

Real Rewards

Weekly BNB payouts from platform revenue, not inflationary token emissions

Zero Tax

No buy or sell taxes at DEX launch for maximum trading freedom

Instant Access

Private sale participants receive 100% token availability at TGE

Proven Tech

Fully developed smart contract suite with deflationary mechanisms

2. Development Journey

From concept to reality: The evolution of JargonQuest through over two years of dedicated development, testing, and community building.

2.1 The Beginning (2024)

JargonQuest was officially introduced to the world on January 3, 2024, marking the beginning of an ambitious journey to revolutionize Web3 gaming. What started as a vision quickly transformed into a thriving community driven project.

Key Milestones in 2024

- **January 3, 2024:** Official project announcement and logo reveal
- **January 14, 2024:** First 1,000 followers milestone on X
- **January 15, 2024:** 10,000 followers milestone achieved
- **February 2024:** First community giveaways launched
- **March 2024:** Legal compliance framework established
- **April 2024:** Pre sale website development initiated

Throughout 2024, the team focused on building a strong foundation: establishing legal frameworks, developing core smart contracts, and fostering an engaged community through regular giveaways and transparent communication.

2.2 V2 Test Phase

The V2 phase represented the critical testing and development period of JargonQuest. During this phase, the platform operated with a 5% buy and sell tax structure designed to fund ongoing development, security audits, and infrastructure improvements.

V2 PHASE CHARACTERISTICS

FEATURE	IMPLEMENTATION	PURPOSE
Buy Tax	5%	Development funding
Sell Tax	5%	Security audits & testing
BNB Rewards Pool	Live	Real yield distribution
Telegram Mini App	Live	Community engagement
Gaming Platform	Beta	Skill based tournaments

Key Achievements During V2:

- Smart contract development and internal testing completed
- BNB Rewards Pool launched with three tier system (Mini, Midi, Maxi)
- Telegram Mini App deployed with 7,000+ active users
- Leaderboard Gaming Platform established with 17,000+ registered users
- Game Vault & Treasury system implemented
- Burn & Earn mechanism activated

Community Growth During V2

The V2 phase saw explosive community growth, with the X following growing from 1,000 to over 13,000 followers. Regular giveaways, transparent development updates, and a focus on community engagement created a loyal and active user base that continues to drive the project forward.

2.3 Evolution to V3

The transition from V2 to V3 marks the culmination of over two years of development and the beginning of a new chapter for JargonQuest. Fair Launch V3 represents the mature, production ready version of the platform, optimized for mass adoption and sustainable growth.

V3 Key Improvements:

- **Zero Tax Structure:** 0% buy and sell taxes for maximum trading freedom and price discovery
- **Mature Smart Contracts:** Battle tested contracts with proven deflationary mechanisms
- **Established Userbase:** 17,000+ gaming users and 7,000+ Telegram Mini App players
- **Revenue Proven Model:** BNB Rewards Pool demonstrating sustainable real yield distribution
- **Enhanced Security:** Multi layered anti bot protection and server side validation

- **Fair Launch Mechanics:** Equal opportunity for all participants with 100% TGE for private sale

V2 VS V3 COMPARISON

ASPECT	V2 (TEST PHASE)	V3 (FAIR LAUNCH)
Buy Tax	5%	0%
Sell Tax	5%	0%
Phase	Development & Testing	Production Launch
Users	Growing Community	17,000+ Gaming Users
BNB Rewards Pool	Active Testing	Proven Real Yield
Smart Contracts	Under Development	Mature & Audited

The Development Philosophy

The development phase never ends. JargonQuest's journey from V2 to V3 demonstrates our commitment to building a sustainable, community driven ecosystem. The extended development period allowed for thorough testing, community feedback integration, and the creation of a robust platform ready for mainstream adoption.

3. Mission & Vision

Mission

Create the first truly sustainable play to earn platform where active users are rewarded with real weekly BNB payouts from platform revenue, not through inflationary token emissions.

Vision

Become the leading multichain Web3 gaming ecosystem that combines skill, AR/VR technology, and real rewards. The development phase never ends. Continuous innovation toward one of the world's largest gaming hubs.

Core Philosophy

We believe that gaming should be rewarding in every sense. Skill should be the only determinant of success, and every participant should have the opportunity to earn real value through their engagement and abilities.

4. Product Ecosystem (Live & Operational)

PLATFORM COMPONENTS OVERVIEW

COMPONENT	STATUS	DESCRIPTION
BNB Rewards Pool	LIVE	Three tier pools (Mini, Midi, Maxi) with weekly BNB payouts
Telegram Mini App	LIVE	Tap to earn with 7,000+ active users, Social Points system
Leaderboard Gaming Platform	LIVE	Instanced tournaments with 17,000+ registered users
Game Vault & Treasury	LIVE	Multi asset custody (BNB, USDT, JQ, ERC-20)
Native Mobile App	IN DEVELOPMENT	Dedicated iOS & Android app

4.1 BNB Rewards Pool – The Heart

THREE TIER POOL SYSTEM

POOL	ENTRY	REWARDS	SPECIAL FEATURE
Mini	Low	BNB (proportional)	Entry for new users
Midi	Medium	BNB (proportional)	50+ BNB paid out in 4 weeks
Maxi	High	BNB (proportional)	Maximum rewards for committed stakers

Mechanism:

- Participation fee on deposit (BNB based, oracle driven)

- Maintenance fee every 28 days
- Claiming fees on reward withdrawals
- All fees flow back into the reward pools (revenue loop)

Social Points Requirement: Social Points (SP) are essential for BNB Rewards Pool participation. Users must accumulate SP through the Telegram Mini App to qualify for pool entry. SP demonstrates active ecosystem engagement and serves as the gateway to real BNB yield.

4.2 Gaming Platform – Instanced Economy

JargonQuest uses an instanced economic model:

1. **Time boxed Tournaments:** Each game has defined start and end times
2. **Pay to Unlock:** Access purchase with USDT, BNB, or JQ
3. **Server Authoritative Scoring:** Anti cheat through server side validation
4. **Automated Settlement:** Leaderboard finalization and reward distribution
5. **Multi Asset Rewards:** JQ, USDT, BNB, ETH, XRP as payout options

Advantages:

- No endgame inflation
- Predictable reward cycles
- Scalable tournament structure

4.3 Telegram Mini App

- **Tap to Earn:** Energy based gameplay
- **Social Points (SP):** Essential for BNB Rewards Pool access and JQ conversion
- **Referral System:** Lifetime rewards on referral activities
- **Cloudflare Turnstile:** Bot protection at application level

SOCIAL POINTS UTILITY

FUNCTION	REQUIREMENT	OUTCOME
BNB Pool Entry	Minimum SP threshold	Access to Mini/Midi/Maxi pools
JQ Conversion	SP balance	Convert SP to JQ tokens
Progression	SP accumulation	Rank advancement, exclusive features

5. Earning Opportunities

JargonQuest offers multiple ways to earn real rewards across all platform components. From passive staking to active gaming, every user can find their preferred earning method.

5.1 BNB Rewards Pools

The flagship earning mechanism of JargonQuest. Users stake BNB in three tier pools to receive weekly BNB payouts from platform revenue.

ENTRY REQUIREMENT Social Points	REWARD ASSET BNB	PAYOUT Weekly
---	----------------------------	-------------------------

How it works:

1. Accumulate Social Points through Telegram Mini App engagement
2. Choose pool tier: Mini, Midi, or Maxi based on your SP balance
3. Deposit BNB and pay participation fee
4. Receive proportional BNB rewards every week
5. Pay maintenance fee every 28 days to keep position active

5.2 Play to Earn Gaming

Skill based tournaments where winners earn real rewards in multiple cryptocurrencies.

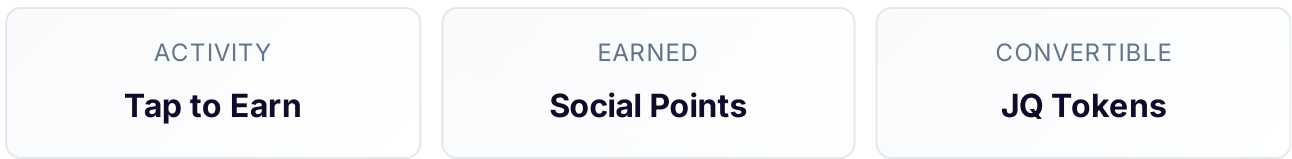

ENTRY USDT/BNB/JQ	REWARDS JQ/USDT/BNB/ETH/XRP	TYPE Skill Based
-----------------------------	---------------------------------------	----------------------------

How it works:

1. Pay entry fee to unlock tournament access
2. Compete in time boxed tournaments
3. Scores are validated server side for fairness
4. Top leaderboard positions receive automated payouts
5. Rewards distributed in your choice of asset

5.3 Telegram Mini App

Tap to earn gameplay with Social Points that convert to JQ tokens.

Earning methods:

- **Daily Taps:** Energy based tapping for continuous SP earnings
- **Streaks:** Daily login bonuses for consistent users
- **Cards:** Collectible cards with SP rewards
- **Achievements:** Milestone bonuses for reaching targets

5.4 JQ Staking

Fixed term staking for passive JQ token rewards with tiered APR.

How it works:

1. Choose lock period: 12, 24, 36, or 48 weeks
2. Longer locks receive higher APR rates
3. Stake JQ tokens from your wallet
4. Claim rewards weekly with rate limiting
5. Principal returned at end of lock period

5.5 Referral System

Lifetime earnings on all activities of referred users.

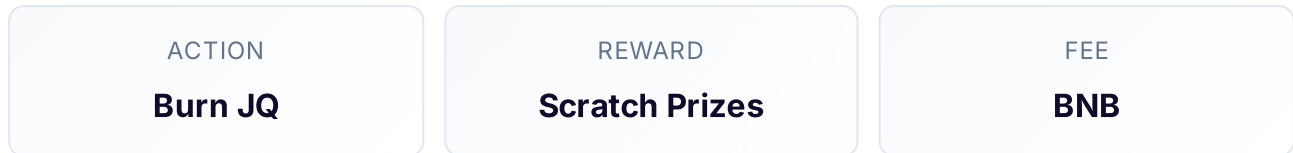

How it works:

1. Share your unique referral link
2. New users sign up through your link
3. Earn percentage on all their platform activities
4. Includes gaming, staking, and pool participation
5. Commissions paid automatically to your wallet

5.6 Burn & Earn

Gamified deflation mechanism where burning JQ earns scratch style rewards.

How it works:

1. Burn JQ tokens to participate
2. Pay small BNB fee for each burn
3. Reveal scratch style reward
4. Win JQ prizes from reward pool
5. Global caps ensure sustainable distribution

Earning Summary

JargonQuest provides diverse earning opportunities for all user types: passive earners through staking and BNB pools, active gamers through tournaments, social users through the Telegram Mini App, network builders through referrals, and engaged community members through Burn & Earn. The development phase never ends, and new earning mechanisms will be added continuously.

6. Tokenomics

6.1 Token Fundamentals

TOKEN SPECIFICATIONS

ATTRIBUTE	DETAILS
Token Name	JargonQuest
Ticker	JQ
Blockchain	BNB Smart Chain (BSC)
Contract	0x9c30537f0116be1cceb1397ae0b1cb6792647d79
Total Supply	5,555,555,555 JQ
Token Standard	BEP-20
Decimals	18

6.2 Allocation & Vesting

TOKEN ALLOCATION BREAKDOWN

CATEGORY	AMOUNT	PERCENTAGE	VESTING	STATUS
Private Sale	1,111,111,111	20%	100% TGE	ACTIVE
Team	388,888,889	7%	1 year cliff, 2 years weekly	OG Contract
Advisors & Legal	166,666,667	3%	6 month cliff, 2 years weekly	OG Contract
Development	277,777,778	5%	6 month cliff, 12 months weekly	OG Contract
Marketing	277,777,778	5%	1 month cliff, 2 years weekly	OG Contract
Floating Liquidity	555,555,555	10%	No vesting	Fair Launch
Treasury	1,111,111,111	20%	1 month cliff, 3 years weekly	OG Contract
Rewards	1,444,444,444	26%	1 month cliff, 3 years daily	OG Contract
Ambassador Program	111,111,111	2%	5 month cliff, 3 years daily	OG Contract
Charity Program	111,111,111	2%	6 month cliff, 3 years daily	OG Contract
Future Financing	Variable	Variable	From unsold private sale tokens	Reserved

Important Notes

- All OG contracts remain 100% unchanged (Team, Advisors, Development, Marketing, Treasury, Rewards, Ambassador, Charity)
- Private Sale Special: As the only category with no vesting, offering maximum flexibility for early supporters
- Unsold private sale tokens will be reserved for future strategic funding rounds

6.3 Deflationary Mechanisms

JQ implements Multi Path Supply Reduction:

DEFLATIONARY MECHANISMS

MECHANISM	DESCRIPTION	IMPACT
Burn on Transfer	Context dependent burn rates (wallet, DEX, claims)	Continuous reduction
Burn on Claim	JQ rewards burned before payout	Deflationary pressure
Burn & Earn	Users burn JQ for "scratch" rewards	Gamified deflation
Buyback & Burn	Treasury revenue flows into buybacks	Value stabilization

Goal: Continuous reduction of circulating supply while maintaining demand through utility.

7. Smart Contract Architecture

7.1 Core Components

SMART CONTRACT COMPONENTS

COMPONENT	FUNCTION	TECHNICAL FEATURE
Jargon Token	ERC-20 with transfer hooks	Context dependent burn rates
Jargon Quest Claim	Staged distribution	Merkle tree verification, weekly limits
Game Vault	Multi asset custody	BNB, USDT, JQ, ERC-20 support
Burn and Earn	Gamified burning	Scratch style rewards, global caps
JQ Stake	Fixed term staking	12 to 48 weeks, tiered APR
BNB Rewards Pools	Real yield staking	Signature gated, decay limits, SP required

7.2 Staking Models in Detail

Model 1: JQ Stake (Token Denominated)

- Lock periods: 12 / 24 / 36 / 48 weeks

- Rewards: JQ tokens (from Rewards allocation)
- APR: Tiered (higher rates for longer locks)
- Claims: Weekly, with throttling

Model 2: BNB Rewards Pools (Real Yield)

- Pools: Mini, Midi, Maxi
- Entry Requirement: Social Points (SP) from Telegram Mini App
- Rewards: BNB (from pool fees)
- Entry: Signature gated (anti whale)
- Decay: Stake limit decreases over time (later entries receive smaller allocation)
- Maintenance: Weekly fees for active positions

7.3 Security Features

SECURITY IMPLEMENTATION

FEATURE	IMPLEMENTATION	PURPOSE
Oracle Integration	Price feeds for BNB fees	Dynamic, fair fees
Signature Validation	Off chain signatures for BNB pools	Exclusivity, anti bot
Rate Limiting	Weekly claim caps per user	Anti dump, stability
Reentrancy Protection	Checks Effects Interactions	Smart contract security
Two Step Claims	Prepare + Confirm pattern	Gas optimization, UX

7.4 Audit Status

AUDIT TIMELINE

PHASE	STATUS	TIMELINE
Internal Testing	COMPLETED	2024 to 2025
Public Beta	LIVE	Since Oct 2025
External Audit	PLANNED	After Gaming Platform beta exit

8. Funding Rounds

8.1 Private Sale (ACTIVE SOON)

ALLOCATION 1,111,111,111 JQ	PERCENTAGE 20% Total Supply	PRICE \$0.015
VESTING 100% TGE	TIMELINE 7 Days	PLATFORM Native Dashboard

Purpose: Fair Launch V3 preparation, liquidity provision, marketing initiatives

8.2 Launchpads

Not planned.

JargonQuest deliberately avoids launchpad listings in favor of a direct fair launch with maximum transparency and equal treatment for all participants.

8.3 Unsold Tokens

Unsold private sale tokens will be reserved for future strategic funding rounds (Seed, Strategic, Series A). No burns. Flexible capital raising without minting.

9. Fair Launch V3

9.1 Launch Details

LAUNCH TYPE Fair Launch	TIMELINE Mid April 2026	DEX PancakeSwap V2
LIQUIDITY 555,555,555 JQ	LISTING PRICE Market Determined	MARKET MAKER Designated MM

9.2 Tax Structure – 0/0%

TAX EVOLUTION

PHASE	BUY TAX	SELL TAX	CONTEXT
V2 (Development)	5%	5%	Test phase, extended development
V3 (Fair Launch)	0%	0%	Final for DEX listing

Rationale: The 5% tax in V2 funded testing and security audits. With Fair Launch V3, the contract will be adjusted to 0/0% for maximum attractiveness and pure price discovery.

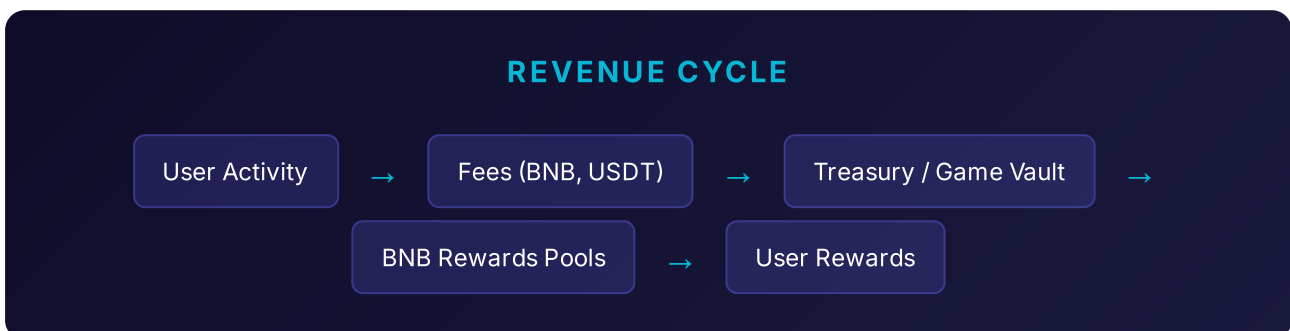

10. Economic Model

10.1 Revenue Streams

REVENUE SOURCES

SOURCE	MECHANISM	PURPOSE
BNB Rewards Pools	Participation & maintenance fees	Pool sustainability
Gaming Platform	Tournament entry fees	Reward funding
Telegram Mini App	In app purchases, ads	Treasury growth
Referral System	Performance based	Acquisition loop
Burn & Earn	BNB fees on burns	Deflation + revenue

10.2 Value Flow

All revenue flows back into the ecosystem, creating a self reinforcing cycle that benefits all participants.

10.3 Social Points Ecosystem

Social Points (SP) are the bridge between casual gaming and real BNB rewards.

SP SOURCES

SOURCE	ACTIVITY	SP EARNED
Telegram Mini App	Daily taps, streaks, cards	Continuous
Referrals	New user onboarding	One time + lifetime
Achievements	Milestones, rank ups	Bonus
Purchases	BNB buy in fixed tiers	Instant

SP Utility:

1. **BNB Rewards Pool Access:** Minimum SP required for Mini/Midi/Maxi pools
2. **JQ Conversion:** SP converts to JQ at fixed rate
3. **Status & Ranks:** Higher SP equals higher platform status

11. Massive Use Case Expansion

The development phase never ends. JargonQuest will continuously evolve into one of the world's largest gaming hubs with dozens of earning opportunities.

11.1 Current Use Cases (Live)

LIVE USE CASES

USE CASE	MECHANISM	ASSET
Skill Based Gaming	Win tournaments	JQ, BNB, USDT
BNB Rewards Pools	SP gated staking with real yield	BNB
JQ Staking	Fixed term lock	JQ
Referral System	Lifetime on referrals	JQ, BNB, USDT
Burn & Earn	Gamified burning	JQ rewards
Social Points	Platform engagement	SP to JQ/BNB access

11.2 Future Use Cases (2026 to 2028)

Guild System

Q2 2026

Clans, team tournaments, shared rewards. Create or join gaming guilds for collaborative earning.

NFT Integration

Q3 2026

In game assets, skins, characters. Own your gaming identity with tradable NFT collectibles.

Native Mobile App

Q3 2026

iOS & Android with full functionality. Gaming on the go with seamless mobile experience.

Cross Chain Gaming

Q4 2026

Multichain support, asset interoperability. Play and earn across multiple blockchains.

Lending & Borrowing

Q1 2027

JQ as collateral in DeFi. Unlock liquidity without selling your gaming assets.

AR/VR Gaming Hub

Q2 2027

Immersive experiences. Step into the game with augmented and virtual reality.

Metaverse Land

Q3 2027

Virtual real estate, events. Own land, host tournaments, build your gaming empire.

Esports Integration

2028

Professional leagues, streaming. Compete at the highest level with real prize pools.

Governance DAO

2028

Community driven development. Vote on platform decisions and shape the future.

11.3 Vision for the Future

JargonQuest is not just a gaming platform. It is the foundation of a new digital economy where skill, engagement, and community participation are directly rewarded. Our roadmap extends beyond 2028 with continuous innovation in:

- **AI Powered Gaming:** Intelligent matchmaking and personalized experiences
- **Cross Platform Integration:** Seamless gaming across all devices and chains
- **Educational Gaming:** Learn to earn mechanics for crypto education
- **Charity Initiatives:** Gaming for good with transparent donation mechanisms
- **Enterprise Solutions:** White label gaming infrastructure for partners

12. Marketing & Growth Strategy

A comprehensive approach to scaling JargonQuest into one of the world's largest Web3 gaming ecosystems through strategic marketing, community building, and sustainable growth initiatives.

12.1 Marketing Pillars

Community First

Building engaged communities across Telegram and X with regular AMAs, giveaways, and transparent updates

Influencer Partnerships

Strategic collaborations with gaming and crypto influencers to reach targeted audiences

Content Marketing

Educational content, tutorials, and success stories to onboard new users

Gaming Tournaments

Regular high stakes tournaments to drive engagement and showcase the platform

Key Marketing Channels:

- **X/Twitter:** Primary announcement channel with 13,000+ followers
- **Telegram:** Community hub with dedicated announcement and community channels
- **YouTube:** Tutorial content and gameplay showcases
- **Medium:** Long form content and development updates

12.2 Growth Projections

User Growth Targets

100,000+

Target Users by End of 2026

GROWTH PROJECTIONS

METRIC	CURRENT (Q1 2026)	TARGET (END 2026)	TARGET (END 2027)
Gaming Users	17,000	75,000	250,000
Telegram Players	7,000	40,000	150,000
X Followers	13,000	50,000	200,000
Monthly Active Users	12,000	60,000	200,000
BNB Pool Participants	3,500	20,000	75,000

Growth Drivers:

- **Network Effects:** Referral system incentivizes organic growth
- **Real Rewards:** BNB payouts attract serious gamers and investors
- **Zero Tax:** 0/0% tax structure encourages trading and holding
- **Proven Product:** Live platform with working features builds trust
- **Continuous Development:** Regular feature releases maintain engagement

12.3 Scaling Roadmap

Phase 1: Launch & Establish (Q2 2026)

- Fair Launch V3 execution
- DEX listing with market maker support
- Aggressive marketing campaign across all channels
- Influencer partnership activations
- Target: 50,000 users by end of Q2

Phase 2: Expand & Engage (Q3-Q4 2026)

- Guild system launch for team based gaming
- NFT integration for in game assets
- Native mobile app release
- Cross chain expansion planning
- Target: 100,000 users by end of 2026

Phase 3: Scale & Dominate (2027+)

- Multichain deployment
- AR/VR gaming experiences

- Metaverse land and virtual real estate
- Esports integration and professional leagues
- Target: 500,000+ users by end of 2027

12.4 Future Funding Rounds

Unsold private sale tokens will be allocated to future strategic funding rounds to fuel growth and expansion:

FUTURE FUNDING STRUCTURE

ROUND	TIMELINE	PURPOSE	ALLOCATION SOURCE
Seed Round	Q3 2026	Mobile app development, NFT integration	Unsold Private Sale
Strategic Round	Q1 2027	Cross chain expansion, AR/VR development	Unsold Private Sale
Series A	Q4 2027	Metaverse land, esports integration	Unsold Private Sale

Funding Strategy

All future funding rounds will prioritize strategic partners who bring value beyond capital: gaming industry connections, technical expertise, and community reach. No new token minting will occur, ensuring supply scarcity and value preservation for existing holders.

13. Roadmap

Achieved (2024 to 2026)

- Smart Contract Development & Testing
- BNB Rewards Pool Launch (Oct 2025)
- Telegram Mini App (7,000+ users)
- Leaderboard Gaming Platform (17,000+ users)
- Game Vault & Treasury System
- Burn & Earn Mechanism

Imminent (April 2026)

- Private Sale Completion
- Fair Launch V3 (Mid April)
- 0/0 Tax DEX Listing
- Airdrop Distribution

Future Phases (2026 to 2028)

- Guild systems & extended game library
- NFT marketplace
- Native mobile app launch
- AR/VR integration
- KYC supported player protection
- Multichain expansion
- Governance DAO
- Charity programs & Odyssey narrative
- Esports & professional leagues

14. Team

JargonQuest is powered by a global team of developers, designers, and gaming enthusiasts united by a shared vision of revolutionizing Web3 gaming through skill based rewards and community driven development.

CEO

Chief Executive Officer

Vision & Strategy

Leading the overall vision, partnerships, and strategic direction of JargonQuest. Over 10 years of experience in gaming and blockchain industries.

CTO

Chief Technology Officer

Development & Architecture

Overseeing all technical development, smart contract security, and platform architecture. Blockchain developer with extensive Web3 experience.

CMO

Chief Marketing Officer

Growth & Community

Driving marketing strategy, community engagement, and brand development. Expert in viral marketing and crypto community building.

LEAD

Lead Developer

Platform Engineering

Leading the development team responsible for gaming platform, Telegram bot, and all technical implementations.

14.1 Development Philosophy

The JargonQuest team operates with a set of core principles that guide every decision:

- **Community First:** Every feature is designed with the community's benefit in mind
- **Transparency:** Open communication about development progress and challenges
- **Security:** Rigorous testing and auditing before any deployment
- **Innovation:** Constantly pushing boundaries of what is possible in Web3 gaming
- **Fairness:** Equal opportunities for all participants regardless of investment size

14.2 Global Presence

Our team spans multiple continents and time zones, enabling 24/7 development and support:

- **Development Hub:** UAE based development company for core platform engineering
- **Token Operations:** BVI registered token issuer for regulatory compliance
- **Community Managers:** Global team providing support across all time zones
- **Advisory Board:** Industry experts from gaming, blockchain, and finance sectors

15. Company Structure

JargonQuest operates through a carefully structured corporate framework designed to ensure regulatory compliance, operational efficiency, and long term sustainability.

15.1 UAE Development Company

UAE Developer Company

Location: United Arab Emirates

Function: Core platform development and operations

Responsibilities:

- Platform development and maintenance
- Game development and integration
- Technical infrastructure management
- Community support and engagement
- Partnership development

15.2 BVI Token Issuer Company

BVI Token Issuer Company

Location: British Virgin Islands

Function: Token issuance and regulatory compliance

Responsibilities:

- JQ token issuance and management
- Smart contract deployment
- Regulatory compliance and reporting
- Investor relations
- Tokenomics management

15.3 Corporate Governance

Our dual company structure provides several key advantages:

- **Regulatory Clarity:** Clear separation between development operations and token issuance
- **Investor Protection:** BVI jurisdiction provides robust legal framework for token holders
- **Operational Flexibility:** UAE hub enables access to global talent and markets
- **Risk Mitigation:** Segregated responsibilities reduce operational risks
- **Future Expansion:** Structure supports future growth and additional jurisdictions

16. KYC Policy & Regulatory Compliance

JargonQuest is committed to maintaining the highest standards of regulatory compliance and user protection. Our comprehensive KYC (Know Your Customer) policy ensures a secure, transparent, and legally compliant ecosystem for all participants.

100% KYC Policy

All users must complete KYC verification to access JargonQuest platforms. This one-time verification creates a unified passport system valid across all our gaming platforms and services.

16.1 Universal Passport System

JargonQuest is developing a dedicated KYC portal that serves as a universal passport for all platform access:

One-Time Registration

Complete KYC once and gain access to all JargonQuest platforms without repeated verification

Universal Access

Single KYC passport valid for Gaming Platform, Telegram Mini App, BNB Rewards Pools, and all future services

Secure Storage

Encrypted data storage with industry-leading security standards and privacy protection

Fast Verification

Streamlined process with automated checks and manual review when needed

16.2 KYC Portal Features

Our dedicated KYC website will provide:

- **Identity Verification:** Government-issued ID document validation
- **Liveness Detection:** AI-powered facial recognition to prevent identity fraud
- **Address Verification:** Proof of residence documentation
- **Sanctions Screening:** Automatic checks against global sanctions lists
- **PEP Screening:** Politically Exposed Persons verification
- **Document Authentication:** Advanced forgery detection technology

16.3 Regulatory Framework

JargonQuest operates within established legal frameworks across multiple jurisdictions:

Compliance Standards:

- **AML (Anti-Money Laundering):** Comprehensive transaction monitoring and suspicious activity reporting
- **CFT (Counter-Financing of Terrorism):** Strict adherence to international terrorism financing prevention
- **GDPR:** Full compliance with EU data protection regulations
- **FATF Guidelines:** Alignment with Financial Action Task Force recommendations
- **Local Regulations:** Compliance with jurisdiction-specific requirements

16.4 User Protection Benefits

Our KYC policy provides multiple layers of protection:

- **Account Security:** Verified identity prevents unauthorized account access
- **Fraud Prevention:** KYC significantly reduces fraudulent activities
- **Dispute Resolution:** Verified identities enable effective conflict resolution
- **Fund Recovery:** Enhanced ability to assist with lost or stolen fund recovery
- **Platform Integrity:** Maintains trust and safety for all community members

16.5 Anti-Bot Protection Integration

The KYC system works in perfect harmony with our Anti-Bot Gaming Policy:

KYC + Anti-Bot = Maximum Security

KYC verification creates an additional barrier against automated bot accounts, making it economically unviable for bot operators to mass-create verified accounts.

Combined Protection Mechanisms:

- **Identity Binding:** Each account tied to a verified real-world identity
- **Duplicate Prevention:** System detects and prevents multiple accounts per individual
- **Behavioral Tracking:** Verified accounts enable better pattern analysis
- **Account Recovery:** KYC enables secure account recovery processes
- **Legal Accountability:** Violators can be held legally responsible for platform abuse

16.6 Implementation Timeline

Phase 1: Q2 2026

- KYC portal development and testing
- Integration with existing platform infrastructure
- Soft launch with voluntary verification

Phase 2: Q3 2026

- Mandatory KYC for new registrations
- Gradual rollout to existing users
- Enhanced verification for high-value activities

Phase 3: Q4 2026

- 100% KYC coverage across all platforms
- Advanced verification features (biometric, etc.)
- Cross-platform passport functionality fully active

16.7 Data Privacy & Security

JargonQuest prioritizes user data protection:

- **Encryption:** All KYC data encrypted at rest and in transit
- **Access Control:** Strict role-based access to sensitive information
- **Data Minimization:** Only collect necessary verification data
- **Retention Policy:** Clear guidelines on data storage duration
- **User Rights:** Full transparency on data usage and deletion options
- **Third-Party Audits:** Regular security assessments by independent firms

17. Anti Bot Gaming Policy

JargonQuest maintains a zero tolerance policy toward bot gaming and automated abuse. We are committed to ensuring a fair and level playing field for all participants.

BOT GAMING IS STRICTLY FORBIDDEN

Any use of automated scripts, bots, or artificial means to gain unfair advantage is a violation of platform terms and will result in immediate action.

17.1 Developer Commitment to Security

The JargonQuest development team is fully committed to maintaining the highest security standards throughout the beta phase and beyond:

- **100% Security Focus:** All development resources dedicated to platform security during beta
- **Continuous Monitoring:** Real time detection systems for suspicious activity
- **Rapid Response:** Immediate action on any detected violations
- **Regular Updates:** Security patches and improvements deployed continuously
- **Community Reporting:** Incentivized reporting system for suspected bot activity

17.2 Detection Measures

Our multi layer detection system identifies bot activity through:

- **Behavioral Analysis:** Pattern recognition for non human gameplay
- **Speed Detection:** Identifying impossibly fast reaction times
- **Consistency Checks:** Flagging unnaturally consistent performance
- **IP Analysis:** Detecting multiple accounts from single sources
- **Device Fingerprinting:** Identifying automated device signatures
- **Transaction Monitoring:** Tracking suspicious reward claiming patterns

17.3 Enforcement Actions

Violations of the Anti Bot Policy will result in:

- **First Detection:** Warning and temporary suspension
- **Repeated Violations:** Permanent account ban
- **Severe Cases:** Forfeiture of all rewards and token holdings
- **Legal Action:** Pursuit of damages in cases of significant platform harm
- **Public Disclosure:** Wallet addresses of confirmed bot operators may be published

17.4 Fair Play Pledge

By participating in JargonQuest, all users agree to:

- Play fairly without automated assistance
- Report suspected bot activity
- Maintain only one active account per person
- Accept all enforcement decisions as final
- Support the platform's commitment to fair gaming

18. Legal Notices & Risks

Please read this section carefully before participating in the JargonQuest ecosystem. Cryptocurrency investments carry significant risks.

18.1 Risk Disclosure

Important Risk Warning

Participation in cryptocurrency projects involves substantial risk. The value of JQ tokens can fluctuate significantly. Never invest more than you can afford to lose.

Key Risks Include:

- **Market Risk:** Cryptocurrency markets are highly volatile
- **Regulatory Risk:** Laws may change affecting token utility
- **Technology Risk:** Smart contracts, while audited, carry inherent risks
- **Liquidity Risk:** Token trading may be limited
- **Competition Risk:** Other platforms may offer similar services
- **Development Risk:** Roadmap features may be delayed or changed

18.2 Not Financial Advice

This whitepaper is for informational purposes only and does not constitute:

- Financial advice or investment recommendation
- Legal advice of any kind

- Tax guidance or consultation
- Guarantee of returns or profits
- Offer to sell or solicitation to buy securities

18.3 Regulatory Compliance

JargonQuest is committed to operating within applicable legal frameworks:

- Participants must comply with their local laws and regulations
- Certain jurisdictions may restrict participation
- KYC may be required for specific features
- Token classification varies by jurisdiction
- Participants are responsible for their own tax obligations

18.4 Forward Looking Statements

This document contains forward looking statements about future development. These statements:

- Are based on current expectations and assumptions
- Are subject to change without notice
- May not accurately predict future results
- Should not be relied upon for investment decisions

Never share your private keys or seed phrases. The JargonQuest team will never DM you first or ask for sensitive information. Always verify links before connecting your wallet.

20. Closing Statement

JargonQuest represents a new paradigm in Web3 gaming, where skill, engagement, and community participation are directly rewarded through sustainable tokenomics and transparent mechanisms.

Over two years of development have culminated in a platform that delivers on the promise of play to earn gaming without the pitfalls that have plagued earlier projects. Our transition from V2 to V3 marks the beginning of a new chapter, one defined by fairness, transparency, and long term value creation.

The journey ahead is ambitious. From guild systems and NFT integration to AR/VR experiences and esports leagues, our roadmap extends far into the future. But the foundation is solid, the team is committed, and the community is growing stronger every day.

We invite you to join us in building the future of Web3 gaming. Whether you are a casual gamer looking to earn while playing, an investor seeking exposure to the gaming sector, or a developer interested in contributing to the ecosystem, there is a place for you in JargonQuest.

The revolution in gaming starts now. Welcome to JargonQuest.
